

WORLD WIDE PRODUCTS

True Bond of Precision and Excellence

Product Catalogue

Office Furniture - Parts & Components

Vision

We pledge to:

- Ensure excellence by incorporating world class technologies in our products.
- Provide a working environment that is conducive to the professional growth
- Care for all our employees in sickness and in health.
- Maintain hygienic working conditions in our factory.
- Preserve and protect our environment.

Company Profile

World Wide Products is a reputed company with more than three decades of experience to its credit in the manufacture, supply and export of office furniture parts and components.

The production, treatment and processing of every component incorporates most modern technology using state-of-the art machinery, sourced from the very best in the world. The manufacturing facility is located in a sprawling 1,25,000 sq. ft. complex at Mandi Gobindgarh, Punjab. There is a dedicated work force of more than 300 skilled and semi skilled workers to handle the operations of this magnitude.

Being pioneers in office furniture component industry, World Wide is all about optimizing value out of each rupee spent by our esteemed clientele. Our products are developed on the concept of simplicity, smart design and precision workmanship. As a result each component remains functional and retain their inherent qualities even after prolonged and vigorous usage. Furthermore, each and every World Wide product / component combines traditional values with modern blueprint that ultimately translates into comfort in a well-designed chair.

Pan India Sales & Marketing Network

Our sales and marketing operations span across the length and breadth of India. We serve our customers through a well established dealer and distributor network which is active in 28 (twenty eight states)

Employee Skill Upgrade Program

At World Wide we recognize the importance of lifelong learning and the need for continual education and skill upgrade. We conduct regular training programs to help our employees to better appreciate their true value and reward their skills. This exercise boosts their moral, improves their efficiency and productivity.

In the world of fast evolving technologies, we remain dedicated to excellence in every facet of our products and offer nothing but the best.

New Horizons – New Hopes

Continuing with the tradition of excellence, World Wide Products introduces for the first time in India the globally famous, 'Tandem Sling Seating System', this new product initiative is in line with the 'Make In India' movement . This seating system is totally indigenous and is being manufactured at the modern plant at Mandi in Punjab. It is offered in Mild Steel and Aluminum Metal Alloy and is offered in units of 1, 2, 3, 4 and 5 seater options.

Certifications & Accreditations

BIFMA

UQSR

We proudly say that we manufacture everything in-house, We believe that Nation's growth is in our own manufacturing and we stay with that practically

*'Our roots are as deep as
our commitment to quality'*

Works at Mandi-Gobindgarh, Punjab

Design Development & Customization

We have in-house design, research and development facility which makes it effortlessly possible to produce full scale prototypes of various kind of furniture for Office, Restaurants and Cafes based on customers design and engineering requirement for a specific product line.

Material and component testing laboratory is also in place within the factory to carry out efficacy test of our prototypes.

Our Strengths

We have the necessary prerequisites, to optimize production values and maintain consistent quality at all times. Some of them are:

- Installed capacity of 18 Lakh units of mechanism per annum.
- Mechanised production line.
- A modern material testing Laboratory.
- All products conform to BIFMA Standards of the USA.

Managing Director - Mr. Jaspal Sachdeva

Managing Director's Message

Dear Friends

I am happy to present the new World Wide Products catalogue.

Let me take this opportunity to thank our valued customers whose continued patronage and confidence in our products has always inspired us to improve our quality and extend best of services. It has also encouraged us to provide best value for their money.

Let me assure, that in years to come World Wide Products will continue to serve the Office Furniture parts & components Market in India and will remain committed to high standards of the industry. We will always remain focused on the needs of our customers, and strive to earn their confidence by offering efficient and reliable products, at par with the best in world.

Over the years I have felt the need to explore new business avenues within the ambit of seating systems industry. After due deliberations with the core group and introspection, I have zeroed in on, 'Tandem Sling Seating System', which is the internationally preferred choice for large public waiting areas at the airports, railway stations and hospitals. It gives me great pleasure to inform that this seating system is already in production at our fully automated manufacturing facility - at Mandi, Gobindgarh in Punjab - with state-of-the-art machinery.

This effort is in line with 'Make in India' drive, which underlines the commercial objective of India.

I, humbly seek the support of our esteemed clientele, along with the co-operation of our employees, I also would like to thank our well-wishers and associates who have contributed to the growth of World Wide Products over the years. In the end let me reiterate that without your continuous support the journey so far would not have been possible.

Thank You

Chair Base

Application :

Office chairs, Airport managing staff chairs, Sofa base, Restaurant & Cafeteria seating.

Material Specification :

Aluminium : Aluminium alloy is pressure die-cast to form the shape and the surface is then polished to perfection.

Metal : High quality cold rolled sheet is pressed and welded to form the shape.

Chrome Plating : The surface is then polished and chrome plated.

Powder Coating : The surface is then cleaned with acid to remove rust and powder coated.

Plastic : Injection Moulding process is deployed to form the shape using high quality material.

Customization :

Legs : Choice of four and five legs base

Colors : Choice of colors; Chrome, Silver Grey, Blue, Cherry and Black.

Dimensions :

Cylinder Diameter : 50 mm

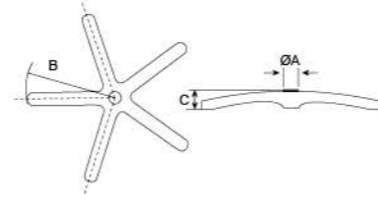

Diameter of base : Ranging from 500 mm to 710 mm

Height : Ranging from 35 mm to 135 mm

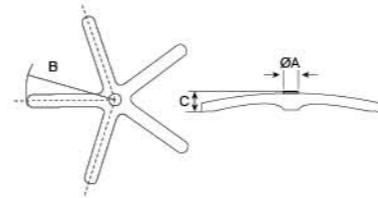

Colors Available :
